The first two volumes are given up to text, the third to a catalogue of Harvard Law School Alumni. As the title to the work indicates, the history is in two parts. A few titles of the chapters will indicate the scope of the first part or the preliminary account of Early Legal Conditions in America. One may refer to "New England Law and Lawyers in the 17th Century;" "A Colonial Lawyer's Education in the 18th Century;" "Early American Barristers and Bar Associations;" "Early American Law Books." Of the many interesting matters disclosed one notices the relation between the student and the bar was much closer than to-day and the general regard for professional honor seems to have had a more personal interest than at present.

With Chapter XII the story of the School begins, and extends through thirty-five chapters. Of them such titles as "The Law Library, 1817-1829;" (when the library had 700 titles treated in 1300 volumes); "Nathan Dane and the New Régime;" "The Moot-Courts;" "Elliott and Langdell;" "The Trial Period, 1871-1881;" "Langdell as a Teacher;" will be read with special interest.

Volume III is wholly given to an Alumni Roll of the School. Most of the names are followed by a brief biography. No one can turn the pages of this volume without a feeling of pleasure as he meets the numberless names of Harvard Law School graduates who have contributed to the legal and political history of this country and added luster to its name.
